now.

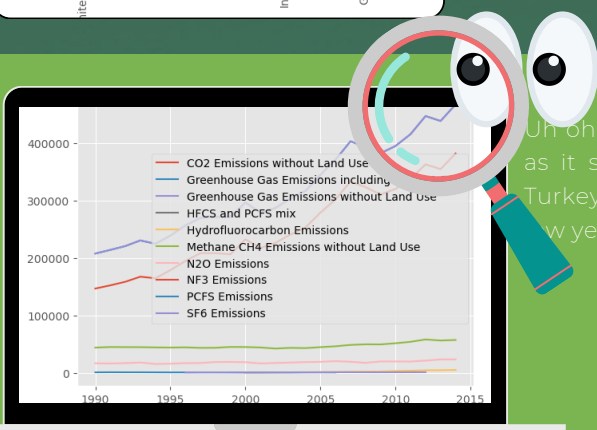

DID YOU KNOW THAT CHINA IS THE LARGEST EMITTER OF GREENHOUSE GASES?

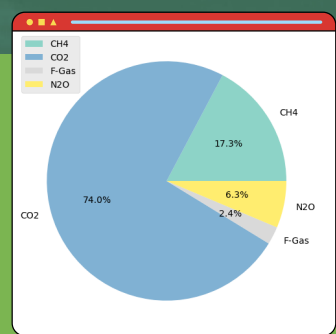

In fact, China emits more greenhouse gas than the entire developed world combined.

Comparing to largest emitters, Turkey makes it look like it is innocent with its almost straight line.

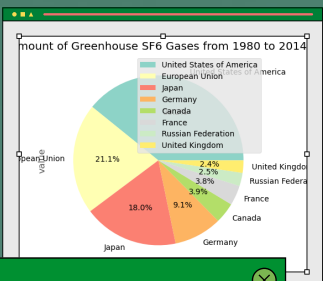

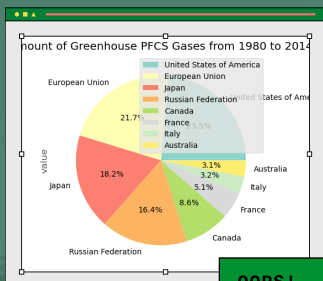

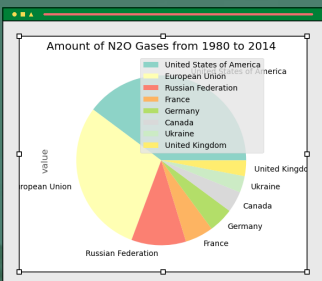

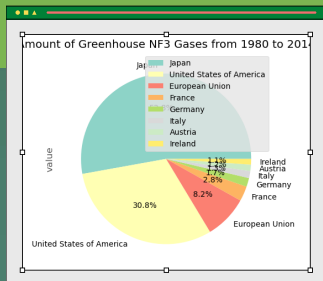

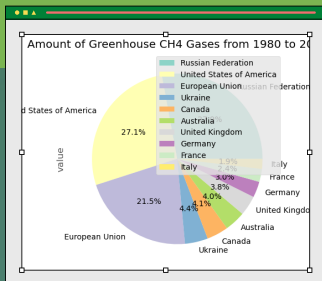

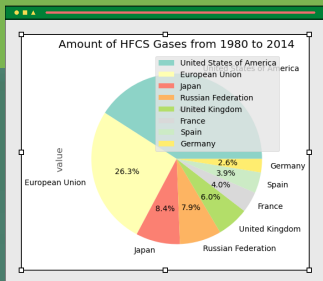

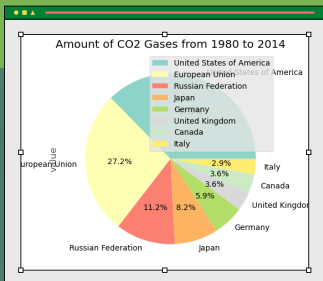

Oh oh! Looks like Turkey is not as innocent as it seems. Greenhouse Gas emissions of Turkey seems to grow rapidly over the last few years.

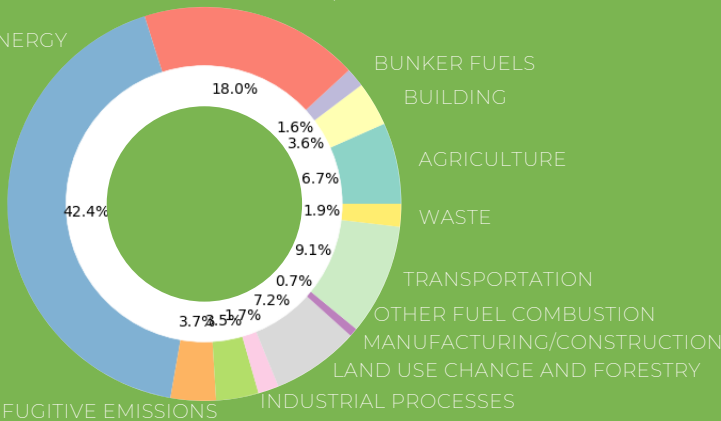

Greenhouse Gases by their gas types, it is shown that CO2 is by far the most produced one.

LET'S CHECK WHO PRODUCES THE DIFFERENT TYPES OF GREENHOUSE GASES.

Greenhouse Gases by their sectors, it is shown that energy takes the biggest part.

MOST RT'ED GREENHOUSE GAS TWEET

Jordan Peterson has uncovered our evil plan to improve air quality, reduce road deaths, reduce greenhouse gas emissions from cars, support businesses, and resurrect the rich social lives of our cities.

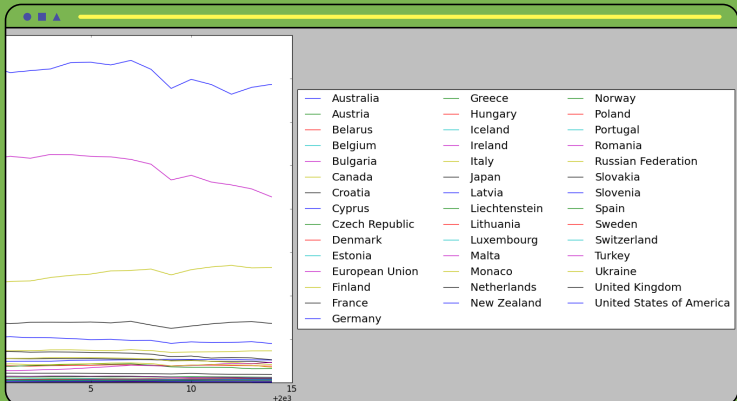

Here's the 'dystopia' he's talking about... <https://t.co/THG3EekfKQ>
